Assignment 6 2022: Palindrome

> *The purpose of this assignment is to:*
>
> * *Use the Stack and Queue and the MyLinkedList implementation.*
> * *Write an implementation (test) class.*

* Create a test program that receive input from the user.
* The program must then make use of a Stack and a Queue to determine if the input provided by the user is a Palindrome. Remember that a palindrome read the same from left to right as from right to left. Example: **racecar**.
* Use good output to give insightful information.
* You may only use the stack and queue as was provided in class and the MyLinkedList implementation.

No Zip files allowed.

Submit all the .java files needed by your program.
